

Items of Interest

John W. Nottingham, R. F. D. No. 1, Cape Charles, Virginia. Since he visited the school last year he has built an addition of 4 rooms to a 5 room dwelling near his own home. He has built a house of 6 rooms at Cape Charles and built an addition to a saw mill at Capeville. He has just completed a water tank at the latter place. There is none like it in the region and he reports the owner as greatly pleased with the job. He has built two barns - one for his brother and one for a neighbor. In the summer season he has more jobs than he can possibly take. He works mostly for white people.

This is the report of a visit made at Hampton in December, 1909.

December 4, 1909.
