# Education and Training in the Care and Use of Laboratory Animals: A Guide for Developing Institutional Programs

## Description

Link to the National Academies Report, *Education and Training in the Care and Use of Laboratory Animals: A Guide for Developing Institutional Programs*

## Body

Federal law now requires that institutions provide training for anyone caring for or using laboratory animals. This volume provides the guidelines and resources needed to coordinate a quality training program, as well as to meet all legal requirements. The volume provides content information for required topics--from ethics to record keeping--and lists sources of additional publications, audiovisual programs, and computerized teaching aids. Included are: Ready-to-use teaching outlines, with detailed instructions for presenting material. Practical guidelines on logistics, covering scheduling, budgeting, and more. Guidelines on how to design training for adults and how to work with investigators who may resist taking training courses.
