Instructor's Guide to Prepare Research Group Leaders as RCR Mentors

Author(s)

Dena Plemmons
Michael Kalichman

Description

These materials are designed to provide motivation and content sufficient for an instructor to lead a workshop titled: “*Mentoring for Responsible Research.*” The long-term goal is to foster an environment in which research faculty are better empowered to initiate conversations within their research groups about the responsible conduct of research. Workshop participants are introduced to rationales, content, approaches, and resources so that they will have the means to develop and implement concrete, discipline-specific strategies for research ethics mentoring.

Body

The Instructor's Guide mirrors the syllabus and gives teaching notes and additional resources. A [template for the workshop syllabus](#) (in Word) format and two sample syllabi ([Example Syllabus 1](#) and [Example Syllabus 2](#)) in pdf format are available for download.
